

THE MANSION PLATFORM

About Mansion

We think the crypto space combined with virtual reality should be a little cheeky, don't you? MANSION is the first of its kind—a crypto-based brand dedicated to the finer things in life.

We've combined nearly every facet of the luxury market into one ecosystem. MANSION will be creating a virtual playground, where every user of this game can build his own Mansion and host virtual events to play-2-earn \$MANS.

MANSION token will be the vehicle, and your ticket to paradise. The pace of the retail fashion & luxury industry is rapidly accelerating with the ever-changing demands of consumers. Blockchain technology stands to address long-standing industry challenges by improving data management tools, enhancing supply chain operations, and reducing the risk of counterfeit and grey markets.

THE MANSION ECOSYSTEM

We're also building an exclusive NFT art space where one-of-a-kind digital pieces can be minted, traded, and sold for other products within the ecosystem. NFTs can also be collected in the game to improve your balance or get higher levels for your reputation.

To have more fun, you also will be able to trade those rare NFTs on different exchanges in the future. This is your chance to get on a virtual ground floor of a platform that will revolutionize the NFT, event, fashion, and luxury lifestyle markets. You can enjoy all the best things in life with us.

The MANSION platform will be a sensuous place for live shows, models, and NFT collectibles. Also, EXCLUSIVE virtual events where MANSION investors are VIPs, getting special advantages and bonifications in this virtual reality.

MANSION Token is a deflationary yield token on the Binance Smart Chain, with a multi-use application.

By the way, we also have weekly high-quality rewards that can be used in real life.

It's time for YOU to get IN and PLAY.
